SPRINT PLAN

Team ID:PNT2022TMID21422
Project name: IoT based smart crop protection system for agriculture.
Maximum marks:8 marks

01

Week 1

Preparation Phase
- Prerequisites
- Enviroment set up

02

Week 2-4

Ideation Phase:
- literature survey
- empathy map
- defining problem statement
- ideation

03

Week 5-6

Project design phase-1
- proposed solution
- problem solution fit
- solution architecture

04

Week 7-8

Project design phase-2
- requirement analysis
- customer journey
- dataflow diagram
- Technology architecture

05

Week-9

Project planning phase
- Milestones&activity list
- Sprint delivery plan

06

Week 10-13

Project development phase
- coding &solution
- acceptance testing
- performance testing
